

Assignment Feedback Form

Student Name/ID/Section	Obada Mohammad Khaled Alhalaybeh - 23110107 - 3		
HTU Course Title and No.	00203280 - Security		
BTEC Unit Code and Title	D/618/7406 - Security		
Assignment Number	1	Assessor Name	Sami Almashaqbeh
Submission Date	Sep 04, 2024	Date Received 1st submission	Sep 04, 2024
Re-submission Date		Date Received 2nd submission	

Ongoing formative feedback from assessor:

- **Attendance:** Excellent
- **Lab / In-class Activity:** Very Good
- **One-to-one Formative Discussion:** Good
- **Participation:** Very Good

Assessor feedback for summative assessment:

General Feedback

Obada has done an exceptional job. He has successfully met all the required criteria, and with a little more organization, his report has the potential to be excellent. In the written exam, his precise answers demonstrated a strong grasp of the subject, highlighting his commitment and intelligence.

Strength of Performance

The student was able to:

- Discuss types of security risks to organisations.
- Assess organisational security procedures.
- Discuss the potential impact to IT security of incorrect configuration of firewall policies and third-party VPNs.
- Discuss, using an example for each, how implementing a DMZ, static IP and NAT in a network can improve network security.
- Review risk assessment procedures in an organisation.
- Explain data protection processes and regulations as applicable to an organisation.
- Design a suitable security policy for an organisation, including the main components of an organisational disaster recovery plan.
- Discuss the roles of stakeholders in the organisation in implementing security audits.
- Analyse the benefits of implementing network monitoring systems with supporting reasons.
- Propose a method to assess and treat IT security risks.
- Summarise an appropriate risk management approach or ISO standard and its application in IT security.
- Analyse possible impacts to organisational security resulting from an IT security audit.
- Justify the security plan developed giving reasons for the elements selected.
- Evaluate a range of physical and virtual security measures that can be employed to ensure the integrity of organisational IT security.
- Recommend how IT security can be aligned with an organizational policy, detailing the security impact of any misalignment.
- Evaluate the suitability of the tools used in the organisational policy to meet business needs.

Limitation of Performance No limitation has been addressed.
